Contact HEROES

Contact us to discuss how HEROES can assist your organization in its emergency preparedness efforts through a visit from our Mobile Simulation Unit*.

heroes@unmc.edu (402) 559-6555

*Travel and lodging costs may apply.

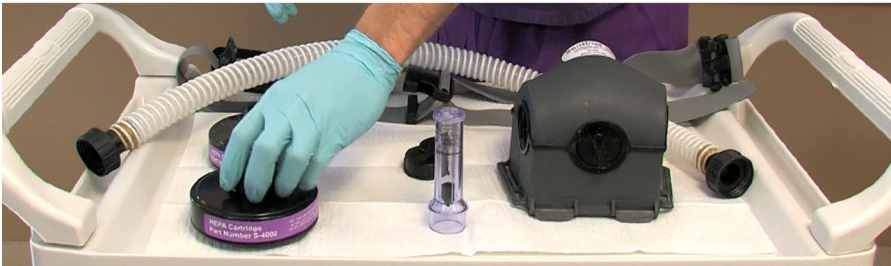

We also welcome your suggestions for Biological Response educational modules that would help your organization in its preparedness efforts.

BIOLOGICAL RESPONSE

Nebraska is home to the largest Biocontainment Unit in the United States - the ten bed Nebraska Biocontainment Unit (NBU) at Nebraska Medicine in Omaha - and the nation's only National Quarantine Unit.

HEROES collaborates with the NBU staff to produce educational modules on the use of Biological Personal Protective Equipment (PPE), Infectious Patient Transportation, Remains Transfer and more.

These modules are available for free for your organization to use in helping you prepare and protect your employees.

Current Biological Response modules can be found on the HEROES website. Scan the QR code below to keep up to date with future educational content through our social media channels.
