

# **SHARING/GOODLIFE DIABETES MELLITUS TEST STRIP POLICY**

Provide prescription for True Balance test strips for 12 weeks (3 months) per the following guidelines.

## **Patients on Oral Hypoglycemics Only:**

- **50** strips
- PRN use to test when ill or to document hypoglycemic episodes.

## **Long-acting Insulin (Lantus/Levemir):**

- **100** strips
- Once daily testing (fasting before breakfast)

## **Intermediate/Combination Insulin (NPH/Lente):**

- **200** strips
- BID testing

## **Short-acting Insulin (Humalog/Novolog):**

- **300** strips
- TID testing (before meals; carb counting/sliding scale)

If the patient wants more strips than the guidelines provide, you may write a prescription without a SHARING/GOODLIFE stamp, and the patient may take the prescription to OneWorld Pharmacy and pay the full price (\$15 for 50 strips).
