

# VISION Clinic Eyeglasses

Here are several options for getting your prescription glasses.

1. **UNMC Optical Shop:** Through a partnership with the UNMC optical shop VISION clinic patients can get a pair of glasses at discounted price (~\$50–100 depending on the frames.) The optical shop is open Monday through Friday while the clinic is open, and will provide you with excellent service.
2. **Retail Eyeglasses Store:** You may take your prescription to any other glasses store if that is easier for you. Some options would include Lenscrafters, Walmart, or other optical shops in Omaha.
3. **Online Glasses:** There are several options for this as well, but one inexpensive website is [www.zennioptical.com](http://www.zennioptical.com). At this site you can order your glasses online and have your glasses shipped directly to your home address. Prices start at \$6.95 (plus shipping). If you have any questions about this or need help don't hesitate to contact us.
