

Omaha Performing Arts is proud to partner with Disney Theatrical Productions for a sensory-friendly performance of **Disney's THE LION KING** this spring!

This presentation and others like it continue to provide families with members on the autism spectrum, or those who have other sensory sensitivities, the opportunity to experience a Broadway production together.

**Slight adjustments to the production will be implemented, including:**

- Low house lights
- No strobe lighting and softened sounds.
- Specially trained volunteers will be available throughout the Orpheum Theater to provide audience support
- The lobby will offer quiet spaces and activity areas for families
