1. What do I need to do if I am returning from a county that the Centers for Disease Control and Prevention has classified as a Level 3 Travel Health location? (As of March 13, 2020, this includes China, Iran, Italy, South Korea, Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland, Monaco, San Marino, Vatican City)
   - You must home quarantine for 14 days and register with the local public health department
   - If you do not develop symptoms during your 14-day quarantine and you are ready to return to work, you must receive authorization from the Public Health Department then contact Nebraska Medicine Employee Health (402.552.3563) for further instructions

2. What do I need to do if I am returning from Japan, Singapore, Hong Kong, Taiwan and Thailand?
   - If you had direct contact with someone with COVID-19 or worked in a health care facility, you are required to register with the Public Health Department and institute a 14-day home quarantine
     - If you do not develop symptoms during your 14-day quarantine and you are ready to return to work, you must receive authorization from the Public Health Department then contact Nebraska Medicine Employee Health (402.552.3563) for further instructions
     - If you do develop symptoms (fever, cough, shortness of breath, sore throat), notify the Public Health Department and then Nebraska Medicine Employee Health (402.552.3563) for instructions
   - If you have not had direct contact with someone with COVID-19 or worked in a health care facility, you must:
     - Register with the Public Health Department
     - Notify Nebraska Medicine Employee Health (402.552.3563) upon return, which will institute an active monitoring protocol for a minimum of 14 days
     - If you develop symptoms (fever, cough, shortness of breath, sore throat):
       - Promptly remove yourself from campus and/or stay home
       - Inform Nebraska Medicine Employee Health
       - Inform the Public Health Department
       - Employee Health will coordinate with the Public Health Department to have staff evaluated and tested. (This practice is congruent with the Nebraska Department of Health and Human Services guidance)

3. What do I need to do to return to work after returning from international travel (non-high risk country not listed in question 1 or 2 above)?
   - If you are not showing symptoms (fever, cough, shortness of breath, sore throat), you had no contact with someone with COVID-19, and/or you did not work in a health care facility, you may return to campus and resume normal activities
   - Notify Nebraska Medicine Employee Health (402.552.3563) upon return, which will institute an active monitoring protocol for a minimum of 14 days
     - If you develop symptoms (fever, cough, shortness of breath, sore throat):
       - Promptly remove yourself from campus and/or stay home
       - Inform Nebraska Medicine Employee Health
       - Inform the Public Health Department
       - Employee Health will coordinate with the Public Health Department to have staff evaluated and tested. (This practice is congruent with the Nebraska Department of Health and Human Services guidance)

4. What do I need to do to return to work after returning from domestic travel (within the United States)?
   - If you are not showing symptoms and/or you had no direct contact with someone with COVID-19, you may return to work and resume normal activities. You do not need to be cleared to work by Employee Health
   - Employee Health recommends self-monitoring (checking yourself for fever, cough, shortness of breath, sore throat) for 14 days
If you develop symptoms, seek medical care by calling your primary care provider, local health department or call the public-facing Nebraska Medicine hotline at 402.559.0041. Promptly remove yourself from campus and/or stay home.
