

A Multidisciplinary Approach to Non-Melanoma Skin Cancer Conference

Friday, September 14, 2018 7:30 a.m. - 3:00 p.m.

UNMC Fred & Pamela Buffett Cancer Center

Yanney Conference Center Auditorium 0.12.101 | 505 South 45th Street, Omaha, NE

The incidence of non-melanoma skin cancer (NMSC) in the United States has been increasing for the past several decades with current estimates of approximately 9,500 new cases every day. Non-melanoma skin tumors represent the largest category of malignancies of any organ system. In recent years, there have been significant advances in the management of these tumors with higher grade/stage tumors requiring a multidisciplinary approach. This conference will focus on the diagnosis and management of some NMSC tumors.

TARGET AUDIENCE

This conference is intended for **physicians, nurse practitioners, physician assistants, nurses, residents, fellows, and students** who are involved in the diagnosis and treatment of patients with non-melanoma skin cancer.

CONFERENCE OBJECTIVES

At the conclusion of the conference, participants should be better able to:

1. Define criteria for diagnosing squamous cell carcinoma, basal cell carcinoma, Merkel cell carcinoma, and CD30-positive T-cell lymphoma
2. Explain criteria for different surgical options and review outcomes
3. Describe criteria and outcomes for the use of radiation therapy
4. Recite criteria, options, and outcomes for the use of chemotherapy

CONTINUING EDUCATION CREDIT

The University of Nebraska Medical Center, Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Nebraska Medical Center, Center for Continuing Education designates this live activity for a maximum of 5.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

REGISTRATION INFORMATION

There is no fee to attend this conference, however, pre-registration is required.

Space is limited. Early registration is encouraged.

Registration Deadline: September 7

FEATURED SPEAKER

Ashley Wysong, MD, MS

Associate Professor and Chair,
Department of Dermatology, UNMC

SPONSOR

This live activity is sponsored by the UNMC Department of Pathology & Microbiology, Regional Pathology Services, and Nebraska Medicine Cancer Service Line, through the resources of the UNMC Center for Continuing Education.

Agenda

Friday, September 14, 2018

7:30 a.m.

Registration / Continental Breakfast

8:15 a.m.

Welcome and Introduction

8:30 a.m.

Clinical Significance of Histologic Reporting Elements for Malignant Non-Melanoma Skin Tumors

Dominick J. DiMaio, MD

Associate Professor, Department of Pathology and Microbiology, UNMC

9:00 a.m.

Merkel Cell Carcinoma Update

Scott R. Lauer, MD

Associate Professor; Associate Director, Residency Program, Department of Pathology and Microbiology, UNMC

9:30 a.m.

Management of Merkel Cell Carcinoma

Alissa S. Marr, MD

Assistant Professor, Division of Oncology and Hematology, Department of Internal Medicine, UNMC

10:00 a.m.

Surgical Update on Less Common Cutaneous Malignancies

W. Wes Heckman, MD

Assistant Professor, Department of Otolaryngology-Head and Neck Surgery, UNMC

10:30 a.m.

Break

10:45 a.m.

Surgical Management of Locally Advanced Cutaneous Squamous Cell Carcinoma of the Head and Neck

Zafar Sayed, MD

Assistant Professor, Department of Otolaryngology-Head and Neck Surgery, UNMC

11:15 a.m.

Current Techniques in Radiotherapy for Basal and Squamous Cell Carcinoma

Andrew O. Wahl, MD

Associate Professor; Medical Residency Program Director, Department of Radiation Oncology, UNMC

11:45 a.m.

Lunch

12:15 p.m.

Mohs Surgery for the Treatment of Non-Melanoma Skin Cancer

Ashley Wysong, MD, MS

Associate Professor and Chair, Department of Dermatology, UNMC

1:15 p.m.

Primary Cutaneous CD30-Positive T-cell Lymphoproliferative Disorders: The Pathologist Perspective

Catalina Amador, MD

Assistant Professor, Department of Pathology and Microbiology, UNMC

1:45 p.m.

Break

2:00 p.m.

Primary Cutaneous CD30-Positive T-cell Lymphoproliferative Disorders: The Oncologist Perspective

Matthew A. Lunning, DO

Associate Professor, Division of Oncology and Hematology, Department of Internal Medicine, UNMC

2:30 p.m.

The Role of Radiation for Cutaneous B and T-cell Lymphomas

Charles A. Enke, MD

Professor and Chair, Department of Radiation Oncology, UNMC

3:00 p.m.

Closing Remarks / Adjourn
