Dear Faculty, Staff and Students of the College of Pharmacy,

I am pleased to let you know the College of Pharmacy graduating class of 2011 achieved a 100% first-time pass rate on the national pharmacy board licensing examination.

This is the third year in a row our graduates achieved a 100% pass rate. Importantly, this marks the twenty-sixth consecutive year (as verified by Dr. Krobot) our College of Pharmacy graduates also have scored above the national average. The class of 2011 had an average score 9 percentage points above the national average.

All of you, the entire College of Pharmacy family, share in this achievement. It reflects the commitment and expertise of the College of Pharmacy faculty in delivering a rigorous and contemporary program of professional instruction and pharmacy practice experiences. It is due to the efforts of our staff in ensuring the educational materials reach the students and in managing course logistics. And, it is a result of the outstanding students who come to study pharmacy at UNMC and their dedication to mastering one of the most challenging courses of study in higher education.

Congratulations to the Class of 2011!

With my deepest appreciation to our faculty, staff and students,

Courtney
