PAPRs

Contact HEROES

Contact us to discuss how HEROES can assist your organization in its emergency preparedness endeavors, either through a visit from the Mobile Simulation Unit or, if you have suggestions for biological response educational modules.

BIOLOGICAL RESPONSE

Nebraska is home to the largest Biocontainment Unit in the United States - the ten bed Nebraska Biocontainment Unit (NBU) at Nebraska Medicine in Omaha.

HEROES collaborates with the NBU staff to produce educational modules on the use of Biological Personal Protective Equipment (PPE), Infectious Patient Transportation, Remains Disposal and more.

These modules are available for free for your organization to use in helping you prepare and protect your employees.

Check out the HEROES website (unmheroes.org) for the current list of modules or contact us to discuss how we can provide a Biological Response training event through the HEROES Mobile Simulation Unit*.

To keep up to date with future educational content make sure you Like, Follow and Subscribe to us through our social media channels.

*Travel and lodging costs may apply.
