VOLUNTEER SHELTER TRAINING

Produced in collaboration with the Physical Therapy program of the School of Allied Health Professions at UNMC, the Volunteer Shelter Training videos have been developed to provide Just-in-Time training to people providing Functional Needs Support Services to individuals who have been moved to a general population shelter.

Subjects covered include Assistive Devices (Walkers, Canes and Crutches), Wheelchair components and use and many more.

Check out the HEROES website (unmcheroes.org) for the current list of modules or contact us to discuss how we can provide a Volunteer Shelter Training event through the HEROES Mobile Simulation Unit*.
